2024 National Open Season Procedure for natural gas transportation capacity in the SISTRANGAS

The National Center for Natural Gas Control ("CENAGAS"), in its capacity as Independent Manager of the National Integrated Natural Gas Transportation and Storage System ("SISTRANGAS"), invites those interested in contracting the natural gas transportation service on a firm basis, to submit a service request regarding the available capacity of 657,405,773 GJ/day, through the binding Open Season that will take place from June 3 to August 30, 2024 (the "Open Season").

The available capacity by SISTRANGAS reception point is specified below:

Commercial Node	Description	Rate Zone	Available Capacity (GJ/day)
V025	CACTUSNVOPMX	8	52,102.993
V045	PEPMENDOZA	7	104,205.986
V080	PAPAN	7	208,411.972
V042	PLAYUELA	7	207,369.912
V059	MAREOGRAFO	4	10,420.599

The capacity reservation in SISTRANGAS is carried out independently of the capacity reservation required in other transportation systems. However, it is contemplated that for the assignment of capacity, CENAGAS will preferentially assign those interested parties who can prove they have capacity in the pipeline upstream of the reception point or who can prove having the capacity to inject natural gas into the SISTRANGAS, for a period and capacity equal to the period and capacity that the interested party has requested in the Open Season.
